Notice Period: 60 days (negotiable to 30) — MBA, IIM Visakhapatnam (2025)

PROFESSIONAL SUMMARY

Product Manager with **8 years of overall experience** building and scaling products across HealthTech, B2C marketplaces, and enterprise SaaS. Proven track record in **0-to-1 product launches**, product-led growth, GTM execution, and experimentation-driven scaling. Leveraged automation and data-driven systems to deliver step-change operational improvements. Delivered **INR 100+ Cr (~\$12M+)** cumulative business impact.

CAREER HIGHLIGHTS

- Delivered **INR 100+ Cr (~\$12M+)** cumulative impact across healthcare platforms, marketplaces, and enterprise SaaS.
- Reduced insurance cashless claim approval from **16 hours to <10 seconds** by launching an automated adjudication engine with 70% straight-through processing.
- Scaled B2C healthcare marketplace to **INR 48 Cr ARR** through experimentation-led discovery and routing optimizations.
- Unlocked **INR 35 Cr+ incremental ARR** via strategic Tier-1 partner integrations (Lenskart, Titan Eye+).
- Achieved **96% reduction** in enterprise client setup time – from 4 days to 30 minutes – via no-code onboarding automation.
- Built CDM platform from **0 to 1**, scaling to **20k+ active users** with **40% MoM growth** via habit-loop engagement design.

PROFESSIONAL EXPERIENCE

Visit Health

Product Manager – Healthcare Products & New Initiatives

Noida, India

May 2022 – Present

Own product strategy and roadmap across claims processing, Chronic Disease Management, OPD products, enterprise SaaS, and a B2C marketplace collectively serving **100k+ users** and generating **INR 100+ Cr ARR**.

- **Automated Claims Processing Platform (0-to-1):** Launched a rule-based adjudication engine that reduced cashless insurance approval TAT from 16 hours to <10 seconds and enabled 70% straight-through processing – eliminating manual review for the majority of claims and significantly improving policyholder experience.
- **B2C Healthcare Marketplace (1-to-10 Scaling):** Scaled marketplace to INR 48 Cr ARR by designing an integrated Marketplace Flywheel across medicines, diagnostics, and teleconsultation. Improved discovery algorithms – incorporating intent signals and behavioral data – and built an experimentation framework that drove sustained double-digit GMV growth.
- **Strategic Partner GTM:** Led integrations with Tier-1 partners (Lenskart, Titan Eye+), unlocking **INR 35 Cr+ incremental ARR**. Improved cart conversion by **10%** through product-led discovery and checkout optimizations grounded in funnel analytics.
- **Enterprise No-Code Onboarding Suite:** Built a configuration-driven enterprise platform – Admin, HR Portal, and auto-spawned employee Enrollment Portal (natively mobile) – compressing implementation from **4 days to 30 minutes** and cutting cost by ~90%. Served insurers, brokers, and corporate HR teams.
- **Chronic Disease Management (CDM) Platform (0-to-1):** Built and scaled to **20k+ active users** with **40% MoM growth** through persona-driven design and a habit-loop engagement model. Leveraged health data signals to personalize interventions and improve adherence outcomes.
- **Retention & Engagement:** Increased customer LTV retention by **14%** by launching a gamified rewards ecosystem with automated multi-channel engagement driven by customer journey analytics.
- **Clinic & Hospital Management Suite (0-to-1):** Built a mobile-first B2B SaaS platform for clinic chains covering scheduling (including third-party integration with Practo, Google), patient management, ABHA-linked digital health records, and end-to-end billing and UPI payment collection.

Decisions

Technical Consultant – Enterprise Workflow Automation

Hyderabad, India

Aug 2021 – May 2022

- Architected no-code enterprise automation platforms for multiple clients; built a government voucher distribution system processing **\$12M+ in benefits**, increasing program adoption by 4%.
- Designed rule-based workflow automation across client engagements, reducing manual processing overhead and

accelerating program delivery timelines.

Swiggy

Process Automation Analyst – Internal Tools & Automation

Bengaluru, India

Jan 2018 – Aug 2021

- **Refund Automation Engine:** Built a rule-based automated refund engine generating **INR 25 Cr (~\$3M) annual savings** and reducing manual operational effort by 70%.
- **Internal Productivity Platform:** Founding member of internal ops platform adopted by **2,000+ daily users**, streamlining support operations at scale. Added gamification features improving productivity by **30%**.
